

IL019 Ginger – medium weight 100% linen is back in stock!

Description

We have just received the IL019 Ginger that so many have been waiting for.

This medium weight fabric can be used for clothing, re-enactment and interior design projects alike. The subtle color of this fabric is great as an accent piece or as the main color in your article, it won't take away from the design and will drape beautifully – creating elegant shadows and flawless movement of your garments and home textiles.

Also, for every order over \$100 – there is a new complimentary gift!

Napkins set of 2, woven out of 100% linen with an intricate handmade hemstitch edging their border.

The Hemstitching was made using a very old technique at a Russian mill that has been handcrafting Hemstitch on linen since the 19th century.

Because 19th century was "dry cleaning" free, people had to wash their linens and this type of hemstitching was developed so the articles don't lose their shapes and form after the wash.

Today, you can wash your napkins in your washing machine and also not worry about them getting ruined in the process.

Thus you have festive, hand made, easy care table linens for everyday meals.

Go ahead right now and do some shopping for the fabrics you need and let us take care of your one of a kind napkins.

Enjoy,
