

4 days Only – DHL Ground shipping is on us!

Description

Summer is here and it is time to freshen up our designs. How you ask... Go Crazy with the Yarn Dyes!

The beauty of these fabrics is their multicolored thread weave that can spice up even that plain shirt pattern you have laying around somewhere.

- Any old clothing pattern you have made, use a yarn dye fabric and the article will have a completely new look.
- Update an existing piece of clothing or home textile with a yarn dye border or pocket; collar or cuffs; ties or ruffles.
- Want to add more summer to your home- use a bright yarn dye for pillow cases, curtains, bed linens, even kitchen towels.
- The simplest to sew projects will look more ornate simply because of the yarn dye fabric design.
- The project doesn't need to be grand to make the grand addition to your summer with an extra splash of color.
- These fabrics are 100% linen so they have all the linen qualities we love – like moisture absorbency, great air circulation and durability.
