An easy way to save on yards of fabric!

Description

Have you heard of our Doggie Bag Section?

If you havenâ??t yet discovered this little oasis for bargain aficionados, let me point the way to additional savings on all in stock fabrics!

Regular stock fabrics â?? sold right on the next page at regular price â?? here in the Doggie Bag Section are sold at 20% off.

Every time we take a bolt and cut yardage to fill orders, at the end of the bolt we have an X amount of yards left.
Obviously this X amount of fabric is cut from both sides and because the fabric piece is already cut, we sell the piece with a discount.
You would cut the fabric anyway to make your project â?? so you are not only saving money, but as an extra bonus, you are saving time that youâ??d spend on cutting.

We wait until we have a variety of different fabrics, in a variety of lengths and post all of the pieces to the Doggie Bag Section in a group. A new group is posted approximately every two weeks. The fabric pieces are sold on the first come first serve basis, no exceptions.

As you can guess, we donâ??t have an unlimited amount of fabric pieces and if you are the first to know that new pieces are available â?? you get to have the first pick.

I donâ??t want you to miss out on getting your fabric at such a terrific discount and I am writing to notify you today of this incredible savings opportunity.
On top of the 20% that is already subtracted from the cost, you can also use

your discount code at check out for additional savings.

Take this opportunity to sign up to receive Doggie Bag alerts and be the first to know when new fabric pieces are available.
Signing up is easy â?? at the top of Doggie Bag Section page there is a box where you need to enter your name and your primary email address. Click on â??Å?Add me to the doggie bag alertâ?•Â• and you will be notified when new pieces are posted.
