How You Can Look Great Saving Money!

Description

What if I told you, you could own a designer quality dress, without having to pay designer prices? Well if you donâ??t believe me, let me tell you about something that happened to me yesterday.

Yesterday afternoon, my wife and I decided to go look around at the different brands and see which designers are using linen.

To my astonishment, designers with brands like Ralph Lauren, Armani, Juicy Couture, Anne Klein and Eileen Fisher all use linen in their new collections.

Almost all of them use Handkerchief linen for their new lines using colors like Pacific Blue, Raspberry, Orange Pixie, Krista Natural, Fiesta Marinaâ?¦

Now, it came to me as no surprise why they would use Handkerchief linen and in these trendy colors for this summer season. After all the colors we selected were to match the seasonâ??s forecasts and the softness of Handkerchief linen is of such finesse, itâ??s irresistible to touch by anyone.

This linen breathes so easily that the feeling of the cool fabric billowing against your skin is like a cool breeze on a summer day. Genteel, elegant and non-allergenic, I am sure that once you feel the fabric for yourself, you will understand why these top designers are using it in their new lines.

None of this was shocking until I saw how expensive everything was. $200 price tag on a dress that requires less than 3-5 yards of fabric â?? and people still rush to buy it everyday! Thatâ??s enough yards of your favorite IL020 Handkerchief linen from my site to make 4-7 dresses!

But for someone like you, a creator, a sewer, an artist, why spend $200 dollars on a dress from a department store when you can buy the same

quality fabric, make a better garment for yourself, plus get the following benefits:

* Save hundreds of dollars by combining your unique talent, with our unique quality fabric!
* Letâ??s face it, there are more body types than there are sizes: make it fit yours perfectly!
