

Double Sided Gorgeous Linen Napkin Tutorial

Description

These will work perfect as a mothers day present, otherwise keep them to yourself for those special family get togethers. Very simple to make, you will be pro at folding those corners in no time.

To make a set of six'Â 16-inch square napkins:

Materials:

Six 16 squares of [IL020 Natural](#)

Two 18 squares of [IL019 Monument](#)

Two 18 squares of'Â [IL019 Willow](#)

Two 18 squares of'Â [IL019 Meadow](#)

Time: 2.5 hours

Level: Beginner

1. Cut your ILo20 into six 16 squares. Cut the rest of the fabric into 18 squares.
2. Pin the natural linen into the center of the larger solid colored square. You will have an inch of the coloured fabric framing the natural linen.

3. Press each side of the solid square 1/2 inch towards the inside of the square.
4. Unfold the corners so you can see the marks the pressing made.

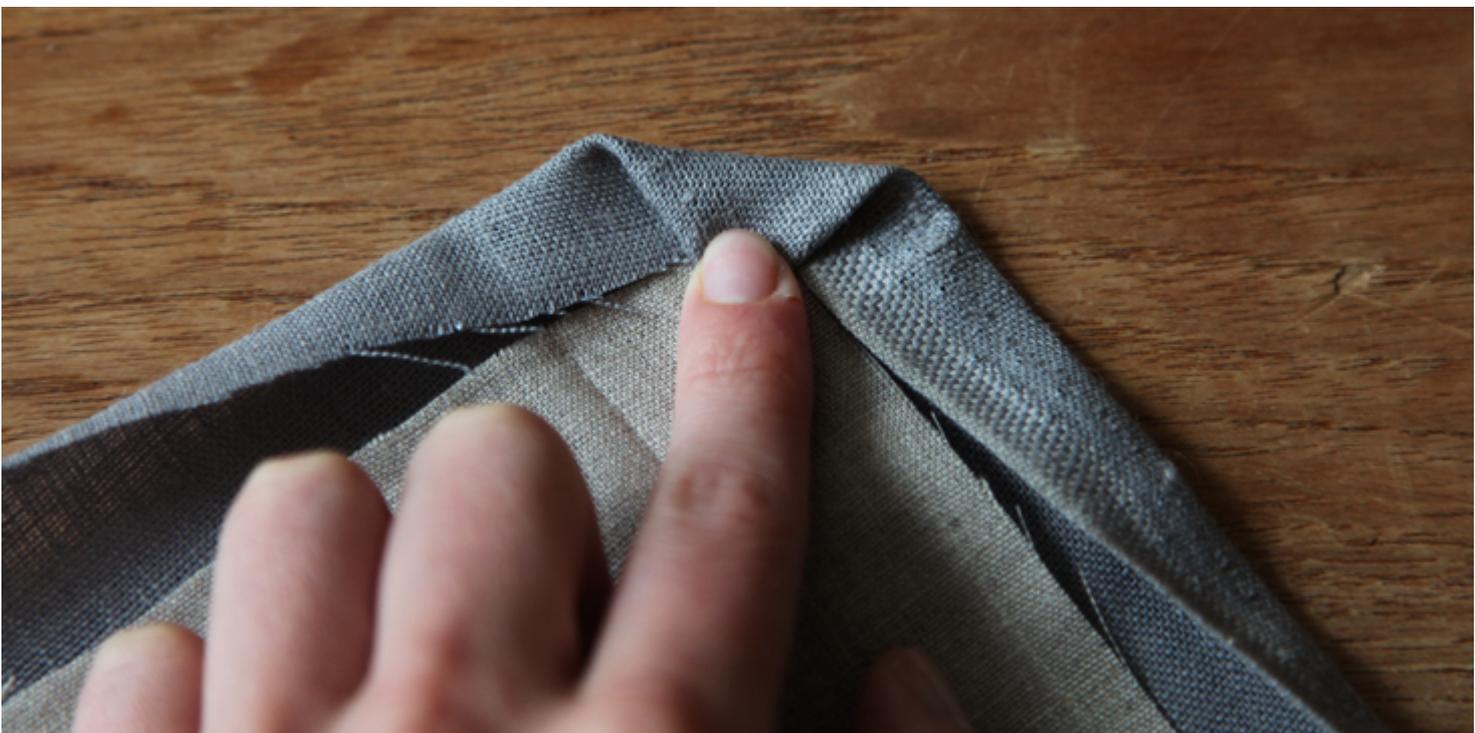

5. Cut off the corner diagonally at the point where the pressing marks intersect as shown above.

6. The corner will now lay flat as shown below.

7. Fold the corner down at 45 degrees as shown.

8. Then fold the sides down a 1/2-inch again, pinning down the corner so it forms another 45-degree angle.

9. Repeat to the opposite side. Fold down and pin all the sides in this manner.

Repeat for the remaining linen. Et voila.
