

Drawstring Striped Linen Trousers

Description

It's summer and at times it's even hot enough to sport a pair of linen trousers here in London so we have decided to make the most of the the sunny days and quickly make a pair before the seasons change. Lucky for those of you residing in sun drenched states of America, you can wear these for a lot longer than your average Great British Islander. These are great' to take out for a drink or wear at home on the sofa.
