

PATTERN REVIEW: Loren Dress In Midweight Linen

Description

RED Mid Weight 100% Linen

I am crazy for a good dress. Especially one with buttons going down along the front. The [Loren pattern](#) is going to be a fave in my closet. When I received it the first thing I did was pull out all my vintage buttons to put against the beautiful [Firecracker Red linen](#) I got.

This dress is a perfect winter piece with all the holidays around the corner and it's vibrancy can work anywhere really. I am excited to wear it around this holiday season.

What I did to prepare my project was a few things. I made two adjustments to the pattern. I added 5" to the dress front and back hem length. I wanted it to be maxi. I added 4" to the sleeve length so it could be a long sleeve.

The pattern was smooth assembly and sewing. I actually had fun putting it together, I couldnât believe how smooth the process was. The different ways the dress is pictured here is the reason why I love it so much. The buttons are a mix of rustic and glam which completed this look.

If you are looking for a lovely dress to add to your collection this is it.
