

PATTERN REVIEW: Ami Trouser in Midweight Meadow Linen

Description

AMI Pant Pattern in FS MEADOW Midweight Linen

Making my first pair of trousers was very intimidating. Iâ??ve made pants before but always with a clean waistband and side zipper. I wanted to challenge myself to make a more tailored pant. When I saw AMI Pattern I wanted both the pants and shorts. I especially love the gathered detail at the waistband, it gives a softness to the other tailoring elements of the pants.

AMI Pant Pattern in FS MEADOW Midweight Linen

I chose to use FS Midweigtht Linen in MEADOW. I love this tone and the coolness of the shade. The first thing I did was carefully read the instructions to make the assembly easier and more enjoyable. Although the instruction booklet was very easy to follow, I also watched videos on making welt pockets. The pockets are actually a breeze if you transfer your markings correctly, however, what I do recommend is using chalk that shows up clearly and doesnâ??t disappear easily on your fabric.

AMI Pant Pattern in FS MEADOW Midweight Linen

The thing I love most about this pant is how it can work for so many occasions. Work, dinner, and meetings. I styled it here to be meeting ready. I love how polished and regal the the look is. Itâ??s also a good addition that I consider a staple.

AMI Pant Pattern in FS MEADOW Midweight Linen

I wanted a little more flare at the waistband and leg, so I went up a dress size at the waist and hip area, which made the gathering at the waistband more prominent, adding softness to the pants. This is a pattern that will be in rotation just because of its versatility and the various length options. Once again another Fabric-Store pattern that doesnâ??t disappoint.
